## About No5

Since 1971, No5 Young People has been providing **free, confidential mental health support, counselling and outreach** for young people aged 11-25 across the RG postcode area.

In that time, we have **transformed the lives of over 25,000 local young people** and their families.

In the **last year** alone, No5 has supported over **1,700 young people**.

722 through counselling and over 1,000 through schools, community and digital outreach.

Demand for young people's mental health services has never been higher.

In order to provide the support young people need and deserve, we must do more.

That is why No5 is leading on the development of **Reading Young People's Hub**

## The Hub—The Vision

*"A place where you can speak to a safe trusted adult that will listen to what you're saying is really important—it's what young people are desperately crying out for"*

-A local young person, aged 19

The Hub will be a partnership of local organisations providing a safe, open-access, drop-in space where young people can access:

Drop-in mental health support

Mentoring

Advice, information and sign-posting

Training

Youth worker-facilitated safe, social spaces

*"A holistic approach to service access and delivery, borne out of organisations and young people working collaboratively. One place where young people can go for everything would make a massive difference"*

-A local young persons' vision of the Hub in Reading

## The Hub - The Vision

*"Following the loss of our beautiful boy, Oliver Lucas Stephens, "Olly", it has become clear that by working together, we can help our children with, safe spaces, mentoring, signposting, and accessible mental health provision.*

*The idea of a Reading-based, centrally located, drop-in hub, which will incorporate all these needs of our young people and can involve many local partners to help them, is fantastic. Our children's lives are in crisis, with the perfect storm of the non-regulation of their social media platforms, smart phone addiction, COVID and lockdown periods away from their schools/colleges and being with their friends.*

*The idea of a drop-in centre, where they can relax, meet others, ask for help and advice, join in activities, listen to talks and presentations, as and when needed, by trained professionals, will make them feel less alone, less worried and more socially connected. It will grow their resilience.*

*Please join us at the Fundraising Gala, and support this project to ensure that our children are supported at the most vulnerable time, as they transition through the teenage years to becoming a young adult"*

**- Stuart and Amanda Stephens**

## The Gala Ball

**On Saturday 22nd April, No5 Young People are hosting a Gala Ball to raise funds towards the development of Reading Young People's Hub**

The evening includes a three-course meal, a live band and dancing along with a raffle, auction and an opportunity for guests to pledge their support and 'buy-a-brick' for the Hub!

Your sponsorship will mean all money raised directly funds the opening of Reading Young People's Hub—a space for No5, alongside local partners, to provide a vital open access, drop-in safe space for our local young people.

# The Gala Ball
